

Abdalla Mohammed Abdalla

Full Stack .Net Developer

abdallagoda99@gmail.com | 01080263456 | Sharqia, Egypt

LinkedIn | GitHub

Objective

Motivated and detail-focused **.NET Developer** with hands-on experience in building and improving **web applications** using **.NET**, **C#**, **ASP.NET MVC/Web API**, and **SQL Server**. Skilled in **full-stack development** with a strong focus on writing **clean, secure, and scalable code**. Passionate about using **technology** to solve real-world problems and always eager to work with **flexible teams**, contribute to **meaningful projects**, and grow both **technically and professionally**.

Education

Al-Azhar University, Faculty of Engineering

- Bachelor of Engineering in Systems and Computers Engineering Aug 2022 – Present
 - **Last Year Grade:** Very Good.
 - **Expected Graduation:** 2027.
-

Internships

Self-Learning Projects

- Working on real projects to improve my web development skills using **ASP.NET MVC**, **Web API**, **Angular**, and **SQL Server**.
- Focused on building practical applications, following professional **development** standards.

Digital Egypt Builders Initiative (DEBI) – Ministry of Communications

Jun 2025 – Present

Location: Zagazig – Sharqia

- A **6-month intensive training** program covering **front-end** and **back-end development** using **.NET technologies**.
- Gained **hands-on experience** through real-world applications, **teamwork**, and job-like tasks.

Information Technology Institute (ITI) – Online Training

Jul 2025 – Aug 2025

- Completed online training covering **ASP.NET Core**, **C#**, **Web APIs**, **Databases**, **OOP**, **LINQ**, **Entity Framework**, and **MVC**.
-

Projects

TaskFlow – Smart Task Management System | ASP.NET Web API (.NET 8)

Aug 2025 – Sep 2025

- Built a multi-user task management system with **Clean Architecture & CQRS** for scalability.
- Implemented **JWT authentication & authorization**, task collaboration, and advanced task management (categories, priorities, recurrence, status tracking).
- Integrated **notifications (email & in-app)** and **automated email updates**.
- Used **Entity Framework Core**, **SQL Server**, **AutoMapper**, and **MediatR** for persistence and maintainability.

Source Code : <https://github.com/abdalladot99/TaskFlow>

MegaStor – Multi-Vendor E-Commerce Platform | ASP.NET MVC (.NET 8)

May 2025 – Jul 2025

- Built a **multi-vendor e-commerce platform** with **ASP.NET MVC**, **Entity Framework**, and **SQL Server**.
- Implemented **role-based authentication** with **ASP.NET Identity (RBAC)**, including **admin/vendor dashboards**.
- Developed **product management (CRUD)**, **shopping cart**, **wishlist**, **order tracking**, and **payment gateway integration** for secure online transactions.
- Added **social login (Google, Facebook, GitHub, LinkedIn, Microsoft)** and **email-based password recovery**.
- Designed a **responsive UI** with **HTML**, **CSS**, **JavaScript**, and **Bootstrap**.
- Optimized **data handling** using **LINQ** and **Entity Framework**.

skills

Programming Languages : C#, JavaScript, SQL.

Frameworks : ASP.NET MVC/Web API, Entity Framework Core, ASP.NET Identity, LINQ.

Architecture & Patterns : Clean Architecture, CQRS, Repository Pattern, Dependency Injection.

Object Mapping & Mediation : AutoMapper, MediatR.

Web Technologies : HTML5, CSS3, Bootstrap, JavaScript, RESTful APIs.

Database Technologies : Microsoft SQL Server, Entity Framework Core.

Development Tools : Visual Studio, NuGet, Postman, Git, GitHub.

Authentication & Authorization : ASP.NET Identity, JWT, OAuth2, Role-Based Access Control (RBAC).

Security Skills : Email verification, Password reset via email, HTTPS/SSL, Custom claims.

Version Control Systems : Git (GitHub).

Other Skills : Java , SOLID Principles, Software Engineering Fundamentals.

Courses & Training

Formal Training :

- **Full Stack .NET Web Development Track** – Digital Egypt Builders Initiative (DEPI)
- **Full Stack Web Development Using .NET** – Information Technology Institute (ITI)

Self-Learning :

- **Object-Oriented Programming (OOP) in C#** – Online
 - **Entity Framework Core & LINQ** – Online
 - **ASP.NET Identity & Authentication Flow** – Online
 - **SOLID Principles in C#** – Online
 - **Software Engineering Fundamentals** – Online
-

languages

English: Professional working proficiency.
